

***for newborns to 18 months old and parent or care giver** "provides a delightful environment unlike any other . . . an engaging experience of learning

and bonding with your baby. Through a unique blend of multi-level activities that includes creative movement, vocal play, object and instrument exploration, and a colorful literature component, your baby's growth and development are stimulated and all of his senses engaged."

***for children 18 months to 3 1/2 years old and parent or care giver** "encourages your child to uncover an engaging

musical world while building confidence, self-control and communication skills. Singing, imitating sounds, rhyming and object identification help foster language skills. Creative movement to various musical "moods" develops a sense of balance, timing and spatial awareness. And listening and turn-taking activities encourage blossoming social skills."

***for children 3 1/2 to 5 years old and parent or care giver (for a portion of the class)**

"takes you and your child on an incredible musical journey of discovery and exploration . . . a journey that is limited only by the power of imagination. Singing becomes a focus for enhancing your preschooler's vocal development as her expressive language is just beginning to emerge. Pretend play activities are integrated with music, vocal development, storytelling, movement and literature to capture your child's potential to learn and to encourage her cognitive and literacy skills, creativity and individuality."

***for children 5 through 7 years old** "provides a pressure-free, developmentally appropriate transition where he can musically succeed before taking on more formal instruction. Using a small-group approach to music education, Kindermusik provides the

opportunity to explore voice development, rhythm, notation, musical symbols and authentic pre-keyboard, string and woodwind instruments."

***for children newborn through 7 years old and parent (s) or caregiver.** "Children will listen to instruments and to each other, learn from their

peers and older children, and enjoy music and movement, story time and family jams! All the *Family Time* activities encourage discovery and exploration and foster sharing and social skills too. In this special place for musical, social and emotional learning, your children will strengthen their ties with each other and with you—and they'll start developing the skills they'll need in school and on the neighborhood playground!"

In ONE Convenient Place!
